ESCC Showcased in Security Sales & Integration Magazine "Best of the Best" Issue

New York, NY – New York, NY – ESCC placed as a finalist in Security Sales & Integration (SS&I) Magazine's 23rd Annual Sammy Awards in the category of "Integrated Installation of the Year".

This prestigious honor was featured in SS&I Magazine's July 2018 "Best of the Best" edition. In it, ESCC was showcased among the top security and communications companies in the nation on the merits of our recent completion of the 352-Unit student housing campus called "The House" at Cornell Tech - the tallest certified Passive House development in the United States.

Says Robert Horowitz, President of ESCC, "It is truly an honor to be ranked in SS&I's "Best of the Best" issue among some of the premier integrated installations in the country. Our staff is committed to excellence in our work and this designation is indicative of this commitment".

ESCC Provides Leading-Edge Security with Multi-Property Remote Access Control Technology

New York, NY – ESCC is providing leading-edge solutions to its customers who are looking for remote access control systems across multiple properties and locations. ESCC's Remote Access Control Technology provides an effective way for its clients to have best-in-class security without the need for on-site servers or concierge services.

The technology, which is fast becoming a standard in residential and commercial portfolios, allows the owners of multiple buildings to monitor and secure their properties by utilizing ESCC's centralized monitoring services.

Says Robert Horowitz, President of ESCC, "As building owners seek better ways to remotely manage their properties, ESCC can help improve building security by providing remote access control as well as 24/7 IP-based video monitoring across multiple locations in real time."
